

IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices

The IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices is an international conference that brings together researchers, educators, and practitioners from around the world to share their latest work and discuss the latest trends in informatics education.

The conference is organized by the IFIP Technical Committee on Education (TC3) Working Group on Informatics Curricula (WG3). TC3 is one of the largest technical committees within IFIP, with over 1,000 members from over 50 countries. WG3 is responsible for developing and maintaining the IFIP Curriculum Framework for Informatics (CFI), which is a widely recognized standard for informatics education.

Informatics Curricula and Teaching Methods: IFIP TC3 / WG3.2 Conference on Informatics Curricula, Teaching Methods and Best Practice (ICTEM 2002) July ... and Communication Technology Book 117) by Clark M. Zlotchew

The IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices is held every two years. The most recent conference was held in July 2022 in Copenhagen, Denmark. The next conference will be held in July 2024 in Seoul, South Korea.

Conference Topics

The IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices covers a wide range of topics related to informatics education, including:

- Informatics curricula
- Teaching methods
- Best practices
- Assessment and evaluation
- Accreditation
- Professional development
- Diversity and inclusion

Conference Proceedings

The proceedings of the IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices are published in a special issue of the journal Computers & Education. The proceedings include

papers that have been peer-reviewed and accepted by the conference program committee.

Conference Impact

The IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices has a significant impact on informatics education around the world. The conference provides a forum for researchers, educators, and practitioners to share their latest work and discuss the latest trends in informatics education. The conference also helps to raise the profile of informatics education and promote the development of new and innovative educational approaches.

The IFIP TC3 WG3 Conference on Informatics Curricula, Teaching Methods, and Best Practices is an important event for the informatics education community. The conference brings together researchers, educators, and practitioners from around the world to share their latest work and discuss the latest trends in informatics education. The conference also helps to raise the profile of informatics education and promote the development of new and innovative educational approaches.
