John Stuart Mill was one of the most influential philosophers and economists of the 19th century. His work on utilitarianism and individual liberty has had a profound impact on political and social thought. Mill's Autobiography is a fascinating account of his life and ideas, and it provides a unique window into the mind of a genius.

Early Life and Education

John Stuart Mill was born in London on May 20, 1806. His father, James Mill, was a Scottish philosopher and economist. Mill's mother, Harriet Burrow, was a writer and feminist. Mill was educated at home by his father, who instilled in him a love of learning and a commitment to social justice.

Mill began studying Greek at the age of three and Latin at the age of eight. He also studied history, mathematics, and logic. By the age of fourteen, Mill had read all of the major works of classical philosophy.

In 1823, Mill entered University College London, where he studied law and philosophy. He graduated in 1825 with a degree in law.

Career

After graduating from university, Mill worked as a clerk in the East India Company. He also began writing articles on philosophy and economics. In 1843, Mill published his most famous work, *A System of Logic*. This work was a major contribution to the field of logic and it has had a lasting impact on the way that we think about the world.

In 1848, Mill was elected to the British Parliament. He served in Parliament for five years, during which time he advocated for individual liberty and social justice.

Mill retired from Parliament in 1858 and devoted the rest of his life to writing and lecturing. He published several important works on philosophy and economics, including *On Liberty* (1859) and *Principles of Political Economy* (1862).

Personal Life

Mill married Harriet Taylor in 1851. Harriet was a feminist and social reformer. She had a profound influence on Mill's thinking and she helped him to develop his ideas on individual liberty and social justice.

Mill and Harriet had one daughter, Helen. Helen died of tuberculosis in 1858. Mill was devastated by her death and he never fully recovered from it.

Mill died in Avignon, France, on May 8, 1873. He was buried in the Père Lachaise Cemetery in Paris.
